Explanation of the Articles in the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

The times of the SUN'S RISING AND SETTING are given for the upper line, and are corrected for refraction for Toronto, Quebec, Fredericton, Halifax and Fort Garry.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton, Halifax and Fort Garry.

The column, SUN ON MERIDIAN, gives the time that a watch should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the Moon's centre passes the meridian of longitude 4h. 46m. W. When in the column headed Moon's rising or setting, or Moon on meridian, the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4h. 46m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 10 to October 9. It passes the meridian twice on October 10; and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 53m. 2s. to the time of its preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude.....	43°	43°	41°	45°	46°	47°	48°	49°	50°
Constant	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s	h m s
Difference for 10' of latitude.....	—1.8	—1.8	—1.8	—2.0	—2.0	—2.0	—2.2	—2.3	—2.3

MOON'S PHASES.—This Table gives the times for the four meridians when the Moon passes the geocentric longitudes of 0° , 90° , 180° , and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the times at which twilight begins in the morning and ends in the evening, i. e., the times when the Sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 46° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	$-5' 38''$	$-3' 51''$	$-1' 59''$	$0' 00''$	$+2' 4''$	$+4' 16''$	$+6' 35''$	$+9' 2''$	$+11' 37''$
2nd Correction for each minute of latitude.....	$+1.8''$	$+1.9''$	$+2.0''$	$+2.1''$	$+2.2''$	$+2.3''$	$+2.4''$	$+2.6''$	$+2.7''$

The 1st correction for the degree of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude $43^\circ 20'$... 1st correction = $-3' 51''$	2nd correction $+1.9 \times 20 = +0' 38''$
" " $47^\circ 40'$... " = $+4' 16''$	" " $+2.3 \times 40 = +1' 32''$
" " $45^\circ 10'$... " = $+0' 0''$	" " $+2.1 \times 10 = +0' 21''$

If the altitude of Polaris above the horizontal plane observed at the time of its meridian transit be corrected for refraction, the latitude of the place of observation will be found by subtracting the polar distance from the altitude so corrected, for the upper transit, and by adding the polar distance to the corrected altitude, for lower transit.

By observing Polaris with a horizon 1 circle at the time of its upper or lower meridian transit, the direction of the meridian may also be found; but as its motion in azimuth at these instants is more rapid than at other points of its course, any error in the time will then produce the *greatest possible* effect on the azimuth. Near the time of greatest elongation, on the other hand, the change of azimuth is very slow; so that an error in the supposed time of observation will occasion a comparatively *small* error in the azimuth. On this account the instant of greatest elongation east or west of the meridian is the time most favourable for the determination of the meridian.

Again, as the point of greatest elongation is the one at which the change of altitude is most rapid, any error in the time will produce a comparatively large error in the altitude. Hence this point of the star's path is the *worst* that could be taken for finding the latitude.

As the transits of Polaris and the times of its greatest elongation often take place when the sky is clouded, or during daylight, several days may sometimes pass without the occurrence of an opportunity favourable for these observations with Polaris.

To remedy to some extent this inconvenience, Tables are herewith given which contain the times of transit of two other circumpolar stars, with the intervals between the times of transit and of greatest elongation; and also the azimuths at the same instant.

In order to harmonise with the rest of the Calendar, where the times of transit of Polaris are placed, the transits of that star are given in *civil* time; for greater convenience, however, the transit of δ and ϵ Ursa Minoris in the following Tables are in *astronomical* time. For the sake of brevity the times are given for the 1st, 11th and 21st of each month, and also on those days when *two* transits take place.

The times of meridian passage on any intermediate day may be found with sufficient accuracy by subtracting the following numbers from the recorded time which next precedes it in the Table.

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45° .

Star Table.

From the times of the Upper Transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45° .

Eclipses.

In the year 1875 there will be two eclipses, both of the Sun.

I.—A total eclipse of the Sun, April 5, invisible in Canada.

II.—An annular eclipse of the Sun, September 29, visible as a partial eclipse in those portions of the Dominion which lie to the east of longitude 93° west.

The eclipse begins before sunrise at all Canadian stations, except in the extreme east of Nova Scotia and in the island of Cape Breton, where the first contact takes place at or soon after sunrise, according to the position of the place.

At Toronto, the greatest phase occurs before sunrise. At sunrise, the magnitude of the eclipse (Sun's diameter = 1) is .828.

Eclipse ends 6h. 56.3m. a.m., Toronto civil time. Angle of last contact from North Pole 123° towards the east for direct image.

The Greenwich mean time of last contact for places near Toronto may be found from the following formulae:

$$\begin{aligned} * \cos \omega &= 0.39371 - [0.17421] \sin l + [9.98017] \cos l \cos (99^\circ 1' 37'' - \lambda) \\ t &= 1\text{h. } 3\text{m. } 28\text{s.} + [3.61182] \sin \omega - [3.80725] \sin l - [7.79645] \cos l \cos (94^\circ 42' 36'' - \lambda) \end{aligned}$$

Contact on the Sun's limb, $\omega + 32^\circ 55'$ from north towards the east.

At Quebec, the magnitude of the eclipse at sunrise is .603. The greatest phase occurs at 6h. 24.2m. a.m., Quebec civil time—magnitude, .871. Time of last contact, 7h. 33.3m., Quebec time. Angle from North Pole, 129° towards the east for direct image.

The Greenwich mean time of last contact for places near Quebec may be found from the following formulae:

$$\begin{aligned} * \cos \omega &= 0.37030 - [0.16687] \sin l + [0.00340] \cos l \cos (99^\circ 51' 16'' - \lambda) \\ t &= 1\text{h. } 5\text{m. } 50\text{s.} + [3.64041] \sin \omega - [3.64318] \sin l - [3.80772] \cos l \cos (95^\circ 53' 43'' - \lambda) \end{aligned}$$

Contact on the Sun's limb, $\omega + 31^\circ 25'$ from north towards the east.

At Halifax, the magnitude of the eclipse at sunrise is 0.159. The greatest phase occurs at 6h. 55.4m. a.m., Halifax civil time. Magnitude of greatest phase, .999. Time of last contact, 8h. 8m. Angle from North Pole, 129° towards the east for direct image.

The Greenwich mean time of last contact for places near Halifax may be found from the following formulae:

$$\begin{aligned} * \cos \omega &= 0.37774 - [0.15715] \sin l + [0.02396] \cos l \cos (100^\circ 54' 5'' - \lambda) \\ t &= 1\text{h. } 8\text{m. } 13\text{s.} + [3.66156] \sin \omega - [3.68485] \sin l - [3.81918] \cos l \cos (96^\circ 39' 44'' - \lambda) \end{aligned}$$

* In these formulae the coefficients of the terms are the numbers whose logarithms are the numbers within the brackets []; also, l denotes the geocentric latitude, and λ the longitude west of Greenwich.

FISHERIES OF THE DOMINION.

The whole value of fish products, 1873, amounts to \$11,794,975. This sum exhibits the value of fish products in the Provinces of Nova Scotia, New Brunswick, Quebec, Ontario, and Prince Edward Island, but does not include the catch of British Columbia, Manitoba and the North-west Territories. In addition to the above

mentioned value, it is computed that American fishermen have also caught on the coast of Canada between six and eight millions of dollars worth of merchantable fish. The whole value of the yield from these fisheries last year, therefore, exceeds eighteen millions of dollars.

Statement of the Yield and Value of the Fisheries of the undermentioned Provinces for the season 1873.

INCREMENT OF POPULATION.

This table represents accurately the increase in the commerce and population of the Christian world during the last 17 yrs. It is of great interest on account of its bearing

upon the questions whether the population multiplies too fast for the good of the race, and whether the general comfort of the individual is being increased or decreased:

	FOREIGN COMMERCE.		POPULATION.	
	1855.	1872.	1855.	1872.
Great Britain	\$288,400,000	\$609,600,000	27,620,000	32,000,000
France	150,300,000	285,800,000	35,750,000	39,100,000
United States	107,840,000	232,800,000	27,900,000	41,000,000
Belgium	09,000,000	109,800,000	4,530,000	5,100,000
Germany, imports only	53,200,000	100,000,000	33,500,000	39,400,000
Austria	26,000,000	89,400,000	36,500,000	39,900,000
Russia in Europe	45,400,000	103,000,000	65,000,000	71,000,000
Italy	32,200,000	103,600,000	18,860,000	27,000,000
Spain	32,500,000	27,800,000	15,600,000	16,370,000
Netherlands	54,000,000	88,000,000	3,433,000	3,650,000
Sweden	9,000,000	14,600,000	3,660,000	4,100,000
Total	\$848,340,000	\$1,885,200,000	271,443,000	311,620,000
Increase in seventeen years (commerce)	118.5 %		Foreign commerce in 1855 per head of population	\$2.18
Increase in seventeen years (population)	14.8 %		Foreign commerce in 1872 per head of population	\$5.66
Increase per cent		90		

The most striking deduction to be made from this table is that while there has been a slow growth in the number of the people, there has been a rapid growth in the com-

merce. Commerce is an index of wealth, and increase of wealth means, in the highest degree, augmentation of physical comforts and well-being.

LETTER RATES, ETC.

Canada.—Letters posted in Canada addressed to any place within the Dominion (including Manitoba, British Columbia and Prince Edward Island) pass, if prepaid, for 3 cents per 1/2 oz., but if posted unpaid such letters are charged 5 cents per 1/2 oz. Letters mailed at any office for delivery by or from that same office, are charged one cent each and must be prepaid, otherwise they are sent to the Dead Letter Office.

Newfoundland.—Postage on letters 6 cents per 1/2 oz. Newspapers 2 cents each. Prepayment necessary.

Bermuda (via Halifax).—Letters 6 cents per 1/2 oz. Newspapers 2 cents each. Printed matter 6 cents for 4 oz.

United States.—The rate on letters to the United States is 6 cents per 1/2 oz. if prepaid, 10 cents if unpaid. Newspapers 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in winter, by which the Postage rate is 3d. stg. per 1/2 oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails to New York, by which the Postage rate to Canada is 4d. stg. per 1/2 oz.

A Canadian Packet leaves Liverpool every alternate Tuesday for Halifax, calling at Queenstown & route. Postage 3d. stg. per 1/2 oz., same as by Canadian Packet to Quebec.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail" by whatever packet forwarded.

WEST INDIES, VIA HALIFAX.

Letters for the West Indies, British and Foreign, are sent via Halifax and Bermuda, monthly; postage 12 cents per 1/2 oz.; newspapers 2 cents each; books 6 cents for 4 oz. No unpaid correspondence forwarded by this route.

POSTAGE RATES, ETC., ON PATTERNS AND SAMPLES WITHIN THE DOMINION.

Patterns or samples of merchandise and goods for sale, not exceeding 24 oz. in weight, may be posted in Canada to be forwarded to any place within the Dominion, on prepayment by postage stamp of a rate of 1 cent per 2 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on prepayment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such packet be handed in to the Post Office for registration.

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; inside, there must be no enclosure but the samples or patterns themselves; the particulars, however, of the trade marks, numbers, and price, may be marked on the articles themselves, instead of on the outside of the packet, at the option of the sender.

Patterns or samples of merchandise cannot be forwarded by mail between Canada and the United States.

POSTAGE RATES, ETC., ON PATTERNS AND SAMPLES TO UNITED KINGDOM AND FOREIGN PARTS.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, German Empire, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, may be sent in bags entirely closed, provided such bags be transparent. Bags entirely closed must not be used for the transmission of seeds to foreign parts.

Scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the post as samples, provided they are packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and any packet containing such articles, which may be found to be insufficiently guarded, will not be forwarded by post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed via France.

List of Post Offices in Canada on the 1st July, 1874.

The Offices printed in Italics are authorized to grant and pay Money Orders. The Offices marked * are Savings Bank Offices. The letters "W. O." following the name of a Post Office, signify "Way Office." The capital letters on the right of the County column indicate the several Provinces of the Dominion.

To meet the wishes of many of our friends in Ontario, we have, though only in the case of that Province, substituted the name of the Township in which the Post Office is situated for that of the Electoral Division. Should the name of the County also be required, reference may be made to the list of Township Municipalities (see Index).

LEGAL AND JUDICIARY.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the act 13 Geo. III. c. 13, which enabled the then practitioners of the law to form themselves into a society and make rules for its government. By the act of 1822, 2 Geo. IV. c. 6, "the Treasurer and Benchers of the Law Society" were formally incorporated; and under those and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law societies of England. By the act 34 Vic. c. 16, the Benchers theretofore appointed from time to time by their own body, are made, exclusive of *ex officio* members; elective by the Bar, the *ex officio* consisting of the Attorney General for the time being, and all members of the Bar of Ontario who have at any time held the office of Attorney or Solicitor General of the former province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the elective, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term to be filled by the remaining Benchers. The Judges of the Superior Courts are Visitors of the Society, and, on the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to practise, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head quarters of the Society, in which is provided accommodation for the Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

Chambers are held each day in Common Law and Chancery by one of the Judges of the said courts, and under recent statutes by the Clerk of the Crown and Pleas in common law, and by the referee in chambers in chancery, for such business relating to suits therein as may be transacted by a single Judge out of court. *Clerk, Common Law Chambers.*—*W. HEARS AND DEVICES COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners, W. B. Howard.*

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these Courts is sufficiently indicated in their title. The Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term, and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. The Judges so selected preside singly at such trials. In the case of death or illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge.

COUNTY COURTS.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to \$100; and to all bail bonds and recognisances of bail given in the County Court to any amount; but not to cases involving the title to land, validity of wills, or actions for libel, slander, criminal, or seduction. An appeal lies to either of the Superior Courts of Law.

COUNTY COURT SITTINGS AND COURTS OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said court is held four times, commencing on the second Tuesday in March, May, September and December, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of less or of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions, may, with their own consent, and subject to the provision of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVIEW.—The County Judges hold annually Courts of review of the Assessor's Bills of each Municipality, being in the light of Courts of Appeal from the Courts of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists, being equivalent to the Courts held by Revising Barristers in England.

INSOLVENCY DEBTORS' COURT.—These courts, which now have reference to traders only, are regulated by the Act 23 & 24 Vic. cap. 35, known as the Insolvency Act of 1860, and assimilated the practice in Bankruptcy and insolvency in the several Provinces of the Dominion. The County Judges in the several counties preside, and official assignees are nominated by the Board of Trade at each place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade.

SUBROGATE COURTS.—The Jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Subrogate Courts. *Chief Surrogate Clerk at Toronto.*—*Mr J. L. Robinson, Bart.*

DIVISION COURTS.—For the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to \$25; injuries or torts to personal chattels amounting to \$10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judges. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

COURT OF ERROR AND APPEAL.—This Court holds its sittings at such times and for such periods as the Judges shall, from time to time, deem necessary or convenient for the speedy dispatch of business, the time now fixed being the 15th of March, June, September and December, notice of the holding of such sittings being given according to the usual practice.

LAW TERMS.—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins first Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November and ends Saturday of the second week thereafter. Trinity Term begins on the Monday after the 21st August, and

ends on Saturday of the following week. The Courts of Queen's Bench and Common Pleas have power also, at their discretion, to hold sittings in banc in time of vacation (except long vacation), by virtue of a rule or order of the court, respectively to be made in or out of term, for the hearing of such special cases or rules for new trials as shall be named in a list to be attached to any such rule or order, and for giving of judgments in cases previously argued, and for disposing of such other business as the Court in its discretion shall see fit; and one of the Judges of either of the Superior Courts sits in open Court on Tuesday and Friday of every week, as well in as out of term, except during vacation, for the purpose of disposing of all Court business which may be transacted by a single Judge, subject to an appeal to the full Court, which for that purpose may be constituted of two Judges.

CHANCERY TERMS.—Terms for the hearing of causes, including examination of witnesses, are held twice in each year, at Toronto and on Circuit, the places and dates being previously arranged by the Judges (see Circuits). POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks at the principal Cities and Towns in Ontario and Quebec are open daily for the receipt and payment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from \$1 up to \$300, or more, with the permission of the Postmaster General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

As respects children under ten years of age, money may be deposited—

Firstly—By a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him. For instance, if he makes his first deposit at the Savings Bank at Cobourg, he may make further deposits at, or withdraw his money through, the Post Office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continue to reside at Cobourg or remove to some other place.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor

pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster General's Office, in Ottawa, and in addition to the Postmaster's receipt in the pass book, a direct acknowledgment from the Postmaster General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he should apply immediately to the Postmaster General, by letter, being careful to give his address, and, if necessary, renew his application until he receives a satisfactory reply.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th of June in each year.

Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage or communications to the Postmaster General in relation to their deposits.

The Postmaster General is always ready to receive and attend to all applications, complaints or other communications addressed to him by depositors or others, relative to Post Office Savings Bank business.

A full statement of the Regulations of the Post Office Savings Bank may be seen at any of the Post Offices appointed for that purpose.

HEINTZMAN & CO.—PIANOFORTES.

In issuing our Annual Circular for 1874, we have again to express our most grateful acknowledgments for the liberal and increasing patronage which we have received, and for the numerous Testimonials as to the superiority of our Pianos which have reached us. With increased facilities, proportionate to the growth of our business, and with a staff of the most skilled workmen which the highest wages can command, we shall use every effort to maintain the high reputation we have now established. It is a matter of great satisfaction to us, as Canadians, that our Pianos are pronounced in every respect equal to the best and costliest from the United States.

OUR IMPROVED BRIDGE.—Extraordinary Brilliance in Treble.

Our Mr. HEINTZMAN, after much experiment, has discovered an application, by means of an Improved Bridge, patented December, 1873, by which the whole Instrument is strengthened and a brilliancy given to the UPPER NOTES heretofore unequalled. Some of the best performers in the Dominion have examined our new Pianos with the Improved Bridge, and they have expressed their highest admiration of the improvement. It would be very gratifying to us to receive a call from connoisseurs in music, for the purpose of their hearing the marvellous clearness and singing properties of our Patent.
